

# Fuad Manaye

## Software and Web Developer

I was graduated with BSc Degree in Computer Science from Debre Tabor University on July 17, 2022. I have acquired all the necessary knowledge that would enable me to shoulder all possible responsibilities in my area of expertise. Besides, I am well organized, co-operating, and punctual and a strong against corruption and biases.

## EDUCATION

### BSc in Computer Science Debretabor University

01/2019 - 07/2022

GPA: 3.49

#### Courses

- Java
- Object Oreinted Database System
- Computer Graphics
- Network and System Administration
- Object Oriented Software Engineering
- Internet programing
- Artificial Intelligence
- Algorithm

## PERSONAL PROJECTS

### 1. Ethio students online education (08/2021 - 09/2021)

- I did this project when I was a 3rd year university student when I got out for apparent ship. Thus, I have been able to successfully run an online learning website where students of 7th to 12th grade can find all things band. Therefore, I was able to achieve the following.
- Provide a web-based approach to Ethiopian students.
- Provide a simple, amazing, error-free, and time-saving system.
- Get the highest evaluation grade in the end of the internship.

### 2. Online Graduates Credential Verification Systems for Debretabor University (09/2021 - 07/2022)

- This project is a system where students can easily take their educational credentials from wherever they are, without going to the registrar. It is also a system where companies can enter the system and contact the registrar to hire the best students wherever they are.
- I graduated from Debre Tabor University by Doing this project and i got A.

### 3. Color Detection Using Python (07/2021 - 08/2021)

- colour detection is the process of detecting the name of any color.

### 4. Portfolio Website (06/2022 - 07/2022)

- A portfolio website is where I describe some things about myself, such as services I provide, skills, etc.

### 5. Tic-tac-toe-game using Python (12/2022 - 12/2022)

- Tic-Tac-Toe is a long beloved classic pen and paper or board game for two players. from this I was able to make this game using Python.

### 6. Simple File Manager using Python (12/2022 - 12/2022)

- A file manager is a software program that helps a user manage all the files on their computer. With this Python project we can open, move, rename and delete files. It also allows us to create folders, delete them and see the list of files in the folder.

## SKILLS

C++

Java

CSS

PHP

HTML

Android Developer (Intermediate)

Python

Node JS

React JS

JavaScript

Microsoft office word

Microsoft Access

Microsoft Excel

Microsoft power point

## ACHIEVEMENTS

### Graduation Project (01/2021 - 07/2022)

*What I personally achieved is that I finally graduated from university by doing a project that can benefit and be used by various universities in the future.*

## CERTIFICATES

### Certified in HTML5 (07/2022 - 08/2022)

*From solo learn online e-learning platform.*

### Certified in Python (07/2022 - 08/2020)

*From solo learn online e-learning platform.*

## LANGUAGES

Amharic

*Native or Bilingual Proficiency*

English

*Professional Working Proficiency*

## INTERESTS

reading magazines

coding

Participating in different social and environmental clubs

writing my feeling in my diary
